McGehee Family Prominent Role

Have Lived in the Wayside Community for Years, and Are Prominent Farmers

Nearly everyone wonders why Wayside was not named McGehee. Years ago, when the town of Happy was the industrial headquarters of this Panhandle region, the late Dr. McIlroy was approached by a stranger seeking one of the McGehee boys. Asking the direction, to that farm, Dr. McIlroy replied: Just go east. You can't miss it. Everything that isn't a polecat is a McGehee.

John T. McGehee, pioneer farmer, rancher and community booster, is determined the name McGehee will remain a pillar of Panhandle development. He has announced his major ambition at this time is to see that all of his holdings remain in the family.

His brother, M. L. McGehee, and his sons are the pioneers of quarter-horse breeding and have gained fame over the Southwest wherever their stock is shown. But John T. McGehee and his sons have confined their interests to good Hereford cattle.

Born in Quitman County, Ga., in 1868, John McGehee migrated to Dallas with his parents, Mr. and Mrs. James Miles McGehee, in 1880. His father died there one year later. In December, 1891, John, his mother and younger sister, Mrs. Bessie Lane, who has been postmistress at Wayside more than 20 years, moved to the Plains and settled near what is now known as the Wayside community.

In Homesteading, it was required that those filing claims should live on the land to prove up. This created a major housing problem 50 years ago. The McGehees solved it at once. John's mother built a dugout in the direct center of four sections. She, Bessie, Sally, and Mary McGehee were its residents. The dugout was constructed so that it lapped over on all four sections. Each of the women had a bedroom on her section in the dugout, and thus fulfilled the letter of the law.

John McGehee filed on several sections near here before settling down on the home place, about one mile north of the Wayside post office, where he has lived the past 42 years. In addition to this place he operates a ranch across the canyon.

Approximately 48 years ago John married Miss Susie Wesley, the daughter of a prominent pioneer family of the Fairview community. They have five children, all residents of this area: Mrs. Macie Helms, Mrs. W. R. Stockett, Mrs. Ola Rogers, J. T. McGehee, Jr., and W. L. McGehee. There are five grandchildren.

John McGehee is a typical Texas cattleman in every respect of the title. He will not give a note, yet his word is his bond, according to his neighbors and friends. Despite his 77 years, he wants assistance from no one, preferring to do all the ranch chores himself. Mrs. McGehee declares her husband arises each morning at the first crow of a rooster. "If he thinks he hears one crow," she added, "and if it is too early even for roosters, John gets up anyway.

His first action each morning is to don his big Stetson hat. He wears it constantly. It is the last thing removed at night.

Scholastics Will Show Increase Over 1944 Count

This week ends the annual scholastic census of the Canyon Independent school district.

S. B. Orton stated yesterday that he estimates an increase of 50 scholastics over the total of last year. According to his count, it looks as if there would be 750 children enumerated in the district.

Mr. Orton has urged that any person who knows of children who may have been missed in the census should see him by Saturday. The loss of any child in this count will mean the loss of $27.50 or more to the district for school purposes.

E. A. Bogert Is Victim of Heart Attack in Sleep

E. A. Bogert, 50 year old safety engineer and general contractor was found dead in bed early Wednesday morning of last week.

J. D. Cazzell, justice of the peace acting as coroner, said there was no evidence of violence, that death was the result of some shock or heart attack.

Mr. Bogert came to Canyon three years ago from Indiana as Safety Engineer at Pantex. He served in that capacity later at Cactus, north of Dumas, at Freeport and as safety installation. Recently he had organized his own contractor business in Amarillo.

Surviving are his wife and two daughters, Dorothy and Barbara, who make their home in Canyon.

Mrs. Faye Cannady spent Wednesday in Panhandle attending to business and visiting friends.

Wheat Poisoning Study Is Made by Stockmen Who Suffered Losses

County Agent Reveals That Treatment Seems to Have Been Discovered for Cattle

At least one cattleman thinks we may have the answer to the question of cattle losses from wheat poisoning. Walter Graham, who has lost pretty heavily from the so-called wheat poisoning has tried feeding blackstrap molasses and has succeeded in checking all losses from the time cows started eating the molasses.

The success of this experiment is especially significant in the case of Mr. Graham's operation from the fact that he has fed what was considered a good mineral mixture and had his cows in good condition but still lost heavily from wheat poisoning. Not until he fed the molasses did the losses stop.

Mr. Graham, and other cattlemen, have observed that when feeding sweet sorghum bundles and a good mineral mixture at the same time the losses were much lighter than when feeding kaffir bundles or other roughage where no sugar was present in the stalks.

A great many cattlemen have saved cows from death from wheat poisoning even after they were beginning to stagger or had gone down. The treatment generally used is an injection of Calcium Gluconate. This is the same treatment that has been used for years to treat milk fever. If we carry this line of reasoning a little further and give credence to the theory of a sugar depletion, or a calcium and sugar depletion, in the blood as the cause of milk fever and the fact that injections of calcium and dextrose brings about a quick recovery. Then, if we consider the similar symptoms of the wheat poisoning and the milk fever we are led to the suspicion that there is a connection between the two. If there is such a connection and the feeding of some sweet feed, such as molasses or sweet sorghum (cut at the right stage) combined with a calcium mixture, then there is a chance that we are on the right trail to find the cure or rather the preventative.

If the sugar, or dextrose, can be supplied in feed while cattle are on wheat pasture and it proves to be the answer to the long debated question of wheat poisoning, the discovery will be worth thousands of dollars every year to Panhandle cattlemen.

If some form of sugar can be combined with the calcium in a mineral the feeding might be greatly simplified.

The writer does not pose as any sort of authority on the subject. This is written in the hope that it might be the lead for further experimentation. If further experimentation should lead to the answer, then another hazard to beef production will have been overcome.

Discharged Vets Will Receive 2 Shoe Stamps

Shoe ration books issued to discharged service men hereafter will contain two valid stamps instead of the single stamp ordinarily allowed, the Office of Price Administration has announced.

Granting discharged service men the use of two regular shoe ration stamps is part of the program to adjust OPA regulations to assist veterans in their return to civilian life. Local War Price and Rationing Boards have been advised that the new ruling applies to all books issued to veterans after March 28, 1945.

When a veteran comes out of the seivice, he either has no shoe book at all, or one from which the shoe stamps were removed on issuance to military personnel. The government issue shoes he owns usually are not suitable for civilian wear, and he generally finds that the shoes he wore before going into the service no longer fit.

The ration book in use for shoes is Book 3, originally issued in the summer of 1943 and in use for shoes since November of that year. Ordinarily, all shoe stamps except the last one that became good are removed when the book now is issued to new babies, late applicants, and any others who are eligible for it. The shoe stamps are stamps 1, 2 and 3 of the airplane series, and discharged service men will have the use of both stamps 2 and 3.

9,110 Pounds of Waste Paper by the Girl Scouts

Gathering 9110 pounds of waste paper, the Girl Scouts of Canyon feel that their drive was a success for them and as an aid to the war effort.

The Scouts assisted by their leaders, gathered, tied and delivered this paper to Amarillo center.

Leaders of the scouts wish to thank all those who assisted in any way and especially do they wish to thank those who tied their papers.

If any one was over looked in the drive, the leaders are sorry they were unable to make a second drive.

License Plates Sales Increase

1945 Tags Must be on All Cars by Sunday Midnight—Sales End on Saturday

All vehicles which operate on the highways must be equipped with the new 1945 license plates by midnight, April 1.

The sale of license plates has increased at the office of Collector M. E. Cantrell during the past week. However, a large number of car owners have so far failed to secure plates in order to keep their cars on the highway.

Owing to the fact that April 1 comes on Sunday this year, the sale of car plates will come to an end on Saturday, March 31. Those who have not secured their plates must do so by closing time Saturday afternoon.

Hill will give welcome addresses. Special music will be given by the college trio, Mary Evelyn Foster, Mary Lee Abbott and Winnie Fred Ramage and their accompanist, Anita Davis.

Don't Change Numbers on Gas Coupons Now

"Don't change the license numbers on the face of gasoline coupons that you have already endorsed—just change the number on the gas book cover and on the Mileage Ration Record," cautioned the District Office of Price Administration in response to many questions about gasoline coupon endorsement after new automobile license plates go into use.

The instructions OPA issued are simple: just draw a line through the old license number on the back of your ration book cover and write in the new license number. The same procedure should be followed on the Mileage Ration Record. It is not necessary, however, to change the license numbers on the face of gasoline coupons that you have already endorsed.

Fine Response Puts Drive Over

Official Ending of Drive on March 31 Gives All an Opporutnity to Subscribe

Randall county people have opened their hearts and their purses to "keep the Red Cross at his side" and have topped the quota for the county by approximately fifty per cent, according to checkings which are still going on this week. County War Fund Chairman, T. V. Reeves stated this morning that he is sure the amount raised will be above $9,000 when the final count is made. The quota was $6,000.

The St. Louis office of the National Red Cross, which is headquarters for the southwestern area, has instructed every branch to continue its work "until every citizen has been given an opportunity to share in caring for the men and women of the United States who are in the military service at home and abroad." In order that no person who is unable to get to town to make his contribution may be neglected, workers will call within the next few days at every house which does not show a 1945 sticker.

W. J. Wooten, member of the Randall County Red Cross Board, expressed the sentiments of everybody yesterday when he said, "Randall county has again done a magnificent thing. Our boys and girls scattered all over the world will be proud that their home folks have shown their interest by this grand 1945 gift to the Red Cross."

In spite of the rush of spring work and labor shortage, almost 100 per cent of the country people have seen or been seen by their community workers and all but one community had its report and money in Wednesday morning. No one has been hurried about making reports, because it has been felt that no one should be asked to make special trips to town at this busy time.

Many of the gifts which have been made to the Red Cross War Fund this year have been truly sacrificial, coming from people with small incomes, but who have felt that the most they could possibly give was what they wanted to give. Others have stated that they were earning more this year than usual, and so could do more to help in the great world wide cause.

Not only adults, but the children of Randall County have shared in a big way in the Red Cross effort. The school children are not only 100 per cent members in the Junior Red Cross, but they have contributed to the War Fund and have made thousands of articles for use in hospitals and camps.

Besides their individual Red Cross contributions, many have given through other organizations to which they belong.

A detailed report will be made to the people of Randall county in an early issue of the Canyon News, so that every person will have a record of the splendid showing which the county has made.

The First National Bank, the City Hall, the offices of the Registrar and Business Manager of the College, and W. J. Wooten will continue to take contributions.

Retailers To Get Information at Meeting Here

All retailers of apparel, dry goods or house furnishings will meet April 4 at 8 o'clock at the City Hall to discuss with local ration board members and representatives from the District OPA the new retail price regulation covering their items.

Discussion will center around the pricing chart each merchant is required to file before April 20. This chart, showing the costs and selling prices of the goods offered for sale on March 19, will simplify the job of calculating prices.

"It is urgent that every retailer concerned with this new regulation be present at the meeting for this will be the best opportunity to get any question concerning the new regulation answered," stated OPA officials.

Rationing Calendar April 1 to May 1

Sugar: Stamp No. 35 is good for 5 lbs. sugar, and it will be valid until June 2.

Meats and Fats: Book IV, red stamps T5 through Z5 and A2 thru J2 are good for 10 points each. K2 through P2 become valid April 1. T5, U5, V5 W5 and X5 expire April 28th.

Fat Salvage: Every pound of waste kitchen fat is worth two red points and 4 cents.

Processed Foods: Book IV, blue stamps C2 through S2 are good for 10 points each. T2 through X2 become valid April 1. C2, D2, E2, F2 and G2 expire April 28.

Mrs. J. B. Speer will be hostess to the Canyon A. A. U. W. in a regular meeting Monday evening at 7:30 o'clock.

Pvt. Arthur Bailey Duncan from Amarillo Field spent the week end at the parental A. B. Duncan home.

EISENHOWER VS. MacARTHUR

Some of the discussions which are making the rounds regarding the relative ability of General Eisenhower and General MacArthur remind us of our boyhood debates upon the relative usefulness of Washington and Lincoln.

So we shall add our nickle's worth to the useless arguments of so-called arm chair strategists

As a matter of record, these generals are operating under so greatly different conditions and the average American has little conception of the difficulties which each has to overcome. So far as we are concerned both are tops.

The so-called experts point to the mistakes of Eisenhower in handling the battle against Germany. However, they overlook the fact that Eisenhower has to deal with a hodgepodge situation, entirely different from that of MacArthur. Eisenhower is not only confronted with a vexing military situation, but in addition has to handle civil problems after our men mop up. He has to satisfy Churchill, which is no easy job; and handle the evasive DeGaulle, who would vex an angel; and in addition handle a mixture of armed forces who are more or less independent. In addition he has to get along with the Russians, without knowing much about their military set-up. Probably the greatest problem is Germany itself. No doubt Eisenhower shared the prevailing views of all Americans that the Germans would throw up their hands as soon as their precious homeland was invaded. For that reason, Eisenhower has sought to spare the civilians as much suffering as possible. But when it became apparent that the Germans were going to follow, or rather be driven to a battle of death by Hitler, Eisenhower has turned everything loose on the Germans. It is a battle to death.

On the other hand, MacArthur has known from the start just what kind of foe he was facing. He knew that he could not trust the Japs either on or off the battle field. Washington had the idea that the Japanese war was more or less a side issue, therefore MacArthur has had to fight to get supplies and men which were vital to victory. He has had the full co-operation of Australians, and such other armed forces which were operating with him.

Both Eisenhower and MacArthur probably have been forced to do a lot of things which they knew were unwise, but there was no other way out for them. If those of us at home will do our jobs equally as well, the war will soon be over.

Former OPA Chief, Leon Henderson, was sent by the President to Europe to study the economic set-up as devised by Roosevelt, Churchill and Stalin. Henderson is back in Washington. He has issued a hot blast against the proposed division of Germany, into three spheres of dominion under the rule of the three nations. He concludes that the United Nations are getting ready to muff the peace plan, and that we shall leave Germany so embroiled that it will be ready for another war in 25 years. Now just who knows a sure fire method of treating Germany after the war? However, if Hitler fulfills his promise to keep the Germans in the war to the last man, there will not be much left of Germany to govern. Perhaps Hitler is doing future generations a great service in his mad efforts to continue the war.

President J. A. Hill recently said that tolerance was one of the things needed in Canyon. Tolerance is no doubt needed throughout the world today as the tremendous problem confronts us in rebuilding a wrecked world. It is a good thing that supreme power is vested in only one place as men are judged for their deeds and misdeeds. All of us are just mean enough to have the desire to condemn to everlasting punishment those with whom we do not agree. Just keep in mind the fact that when you have the desire to send some one to hell because he does not agree with you, that at that moment you are pretty near the firey furnace. Right then is a good time to think in terms of tolerance, rather than in condemnation.

AN UNBELIEVABLE RECORD

If anyone wants to get an idea of what the American oil industry has done during the war emergency, let him look at one of our new B-19 bombers, the largest in the world. It carries four 2,600 h. p. engines and a load of 10,480 gallons of gasoline.

If you feel you are a little abused in not being able to get all the gas you want, think of thousands of such bombers, plus tens of thousands of smaller fighting planes. Then think of the tanks, trucks and ships that must be fueled with oil.

When you realize the demand that all this equipment in our armed services make on our oil industry, you will begin to wonder how you get any gasoline at all. And yet the oil industry has kept everything rolling, in addition to "oiling" not only our own military requirements, but a large part of the requirements of our allies.

It has done an unprecedented job, and its production in the face of untold difficulties will go down as another outstanding monument to American initiative and enterprise.

OPA has done a fine job in holding down prices for various commodities. But printers are having unmitigated hell with the paper which we receive as a result of the manufacturers trying to produce paper at ceiling prices. All standard weight and qualities have been eliminated, and sub - standard weights and qualities substituted. There is a man-shortage on in every printing shop in the land. As a result automatic machines would come in handy these days. We have such a press at the News office, which will handle standard weight and quality papers at rapid speed. But this war product is impossible. One day last week we printed 15M on one side of a folder which was being printed on book paper. But the next day on making a run on the other side it was possible to run only 6M because of the texture of the stock. The paper looks as good as ever, but has no body. It is impossible to print envelopes on this automatic machine now because they are so badly curled. The situation is simply this: In order to hold prices, manufacturers have cut the quality so that it is costing printers more to produce their printing—and the price must not be increased to the customer. The customer does not want cheaper printing, but he is sure getting a cheaper job because of the quality of paper. We would be glad to pay a little more to get standard weight paper and standard quality, but the government forbids. So the poor printer takes the rap.

Judge H. E. Hoover of Canadian is dead. He was a great benefactor to the Panhandle-Plains Historical Society. For years before the museum was started, Judge Hoover would demand at the annual gathering of the Society: "Let's build a museum dedicated to the pioneers of West Texas." He wanted the people to build a museum in order to preserve traditions of the West which he saw were rapidly slipping away. It was under his fearless leadership that work was started on the museum. He was happy in seeing the first and second units of the museum completed. He furnished much of the inspiration which led to construction of the third unit, which was halted by the war. Judge Hoover was a great man, and honored by all who knew him.

Anthony Eden has resigned from the British Cabinet, but Churchill refuses to accept his resignation. Eden is tired of the old fashion diplomacy of Churchill, and wants Britain to become modern in its politics. You read recently of the mess in Greece, and how Churchill was criticized for his actions there. More light on the subject: While Americans were feeding the starving Greeks, wearing British uniforms, a British officer was driving a car, draped with the Stars and Stripes for protection, between the warring factions. This officer was distributing money among the royalists, the group backed by Churchill and who were so distasteful both to Roosevelt and to the Greeks that had fought the Germans from the start. The more you see and read of Old World Politics, the more you want to get out of the mess and tell them where to go and stay put. But since America is the biggest and strongest nation in the world, we have no other choice than to assume our obligations as a world power. We tried to cut loose from the Old World after the first war, and see what happened to us.

Frank Dobie of the University of Texas has started another turmoil. He stated that he had no objections to negroes attending the University of Texas. The Newsman has repeatedly stated that he knows nothing about the negro and the problem which the negro presents since he has not lived among them. The recent decision of the Supreme Court opens a new problem for the South, which we had as well recognize. Mr. Dobie may be right or may be wrong in his assertion. Probably his critics are on equally thin ice. We see no sense in stirring up the race problem by openly inviting the negro to challenge the right of the whites to keep them out of the University. If the negro gets into the University, he should have equal rights and privileges with all the students. This will not suit the people of Texas. If Dobie is right, then he is years in advance of his time In the meanwhile, he would do the negro a greater service by demanding that the blacks have an equal right to primary education rather than trying to push them into the top of the school system.

Americans are pretty mad about "government by edits." Yet when these edits or executive orders pretend to affect the war, woe is he who seeks to break one of them. There was a lot of howling in big cities about the midnight curfew. Mayor LaGuardia of New York was the only big city executive who sought to fight the order. Washington admitted that there was no law to back up the order, but it seems that the people generally are sold on the theory of accepting orders if the war may be ended just just a little earlier. The little mayor has been whipped in his efforts to keep the bright spots open for an extra hour. For a long time LaGuardia was considered very close to the administration. In fact, it has been rumored time and again that he was slated for some big national job. But the appointment has not materialized. It was recently announced that the President was going to back another candidate for Mayor of New York City. Maybe there is politics back of the Little Flower's one man revolt. You can never know.

Randall county Democrats are asked to give $50 toward the national campaign fund for 1946. The situation is clear. The Republicans have the best organization in recent years. The party has more money to spend in 1946 than it had in 1944. An effort will be made to gain control of the House of Representatives in 1946. By this means the Republicans will tie the administration's hands and knock out the numerous alphabetical agencies which have been established under the New Deal. You are going to see a lot of politics in 1946, as the field is being cultivated now for the big battle.

Texans are duly alarmed. Pipe lines are running north and east from our gas fields, taking our future supply of natural gas, with very little revenue to the state. We are furnishing present industries cheap fuel at the expense of future generations. For 15 years various attempts have been made to stop their drain from Texas, but to no avail.

Judging from some reports we hear blasted over the radio, we are all just about ready to be starved to death. As a matter of fact, Americans have always eaten too much, and a little tightening of the belt would be a fine thing for all of us. Regardless of what you hear, no one is going to starve.

The Senate rejected the President's nomination of Aubrey Williams to head the vast rural electrification program of the government. We hope that the President will now select a practical man who knows something about the electrical business rather than try to pay another political debt.

The News needs a printer. We have been looking over the provisions of apprentice training as presented under the GI bill. The program looks very good, until we realize that any apprentice will be under bureaucratic supervision and control for five years. What is going to be the result after the war ends? Are free loving Americans going to submit for a long period of years to constant supervision from Washington? Or are we going to tell Washington that the people can run the nation without being told what we can do and how we should do it? Frankly we are puzzled. The Newsman has believed for many years that federal control would be increased year after year while local self-government would be relegated to the rear. We have foreseen these events, and have been fearful of them. But just how far are the people going to submit to this constant supervision of the bureaucrats? We don't know.

We have always had high respect for Commander Harold Stassen, former Governor of Minnesota. He went into the navy just as the Republicans were fishing for a candidate for President. He would have run Governor Dewey a close race, had he not been in the service last year. He has now been relieved of active service and will go to the San Francisco conference as a Republican member. His recent utterances are sound. He has been in battle and knows the mind of the GI. He knows that the United States must assume its responsibility as the strongest nation in the world. Unless the signs change, the isolation policy of Tom Dewey and other reactionary Republicans will be thrown overboard by the party in 1948 and Harold Stasson will be the nominee for president.

Canada Resident Presents Library With New Book

Mrs. O. P. R. Ogilvie of Ottawa, Canada has presented the Library a copy of "The Unknown Country" by Bruce Hutchison. This outstanding story of Canada and her people is the author's "attempt,and an exceedingly successful one, to paint a clear-cut and revealing picture of his native land to both the Canadian and the 'outlander'." Photographic illustrations of the life and scenery in Canada add to the interest of the book.

Mrs. Ogilvie is a sister of Miss Moss Richardson.

Philippine Man Will Talk to W. T. Early in April

The American Association of Teachers Colleges, the United States Office of Education, and the Commonwealth of the Philippines, have cooperated in arranging for Mr. Bienvenido N. Santos to visit West Texas State College on April 5 and 6. W. T. has the privilege of being one of a select group of institutions in the United States to have Mr. Santo as a speaker.

Mr. Santos, who has had teaching experience, reporting, and governmental positions, gives authentic information about the people of the Philippines, their work, activities, and problems. He is studying at first hand the teacher-education programs in the United States and in order to get suggestions for preparing teachers in their country which will enable him to return to the Philippines qualified to render some effective service in the improvement of teacher education there.

Bienvenido N. Santos received a Bachelor of Science in Education from the University of the Philippines, Manila; his major was English, his minor, history. He earned his M. A. degree from the University of Illinois, and has done post-graduate work at Columbia University.

This famed man has published many poems and has written short stories. At the present he is associated with the public relations and editorial assistant to the secretary of information and public relations, of the Commonwealth and editor of "Philippines" magazine.

Books printed in the 16th century contained bits of copper in the paper. This was due to the fact that paper of that period was made from brocades which contained metal threads.

Dr. Drye: I think so. But as I was preaching last Sunday I seemed to have more nodding acquaintances than friends.

The reason some girls never get married is they are too biased. It's bias this and bias that until the boy friend is busted.

Mrs. Blake: I wonder why Emily and her husband can't get along.

Mrs. Drake: I think because he has such a dogged determination and she has a catty disposition.

IS LIGHTNING ? ZIG-ZAG

YES ☐ NO ☐

Old Jupiter's lightning was Z-shaped. Today's lightning-fast cameras prove that it really flashes beautiful curves. Shows how weather bears watching, and now in Spring, so does the car that must last you! It's time to drain unfit Winter oil, and you'll get far more than an oil change by having your engine's insides OIL-PLATED.

All you need is Conoco N*th* motor oil to bond OIL-PLATING direct to working parts—really a built-on layer of lubricant. This special wear protection—a great research achievement—is surfaced to metal by Conoco N*th* oil's strong "power of attraction." And N*th* oil provides tough liquid film, too.

OIL-PLATING and oil film are both fighting wear every mile. Then after stopping, when acids want to gnaw any engine, they're curbed by OIL-PLATING—the foe of corrosive wear!

What a big lot of safety from wear! . . . to stretch engine life . . . to make oil and gasoline last you . . . to minimize carbon and sludge . . . to help power! Yet Conoco N*th* oil costs little more. Fast as lightning, change for Spring. Continental Oil Co.

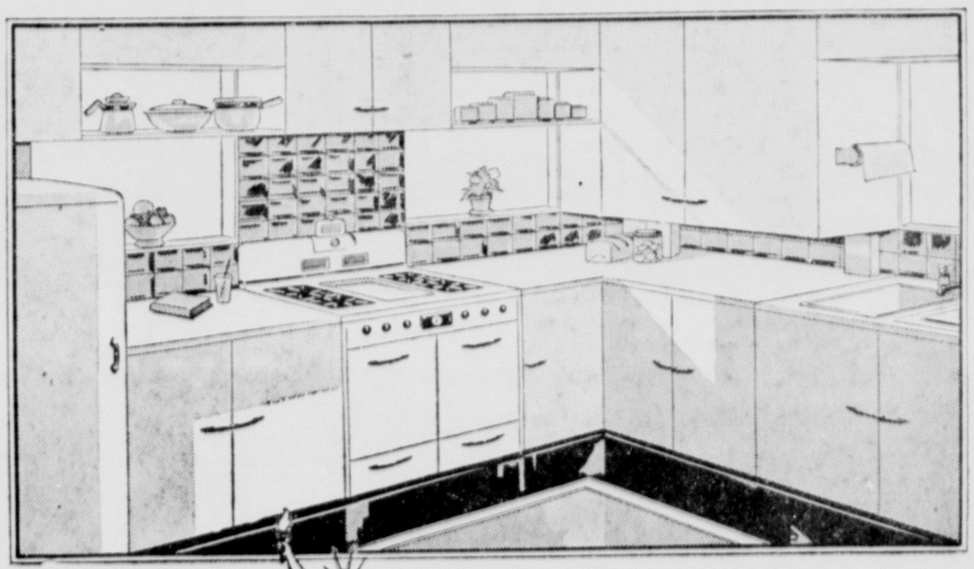
Some day.. **YOU CAN HAVE A NEW GAS KITCHEN LIKE THIS!**



THE NEW FREEDOM GAS KITCHEN WILL BE AVAILABLE WHEN PEACE RETURNS

There is no fuel so fast, so economical as gas. For cooking, refrigeration, home heating, water heating and air conditioning, gas is best.

IF YOU ARE planning a new home or the remodeling of your present one—*start with the kitchen.* Here the average homemaker spends most of her working hours. Here she prepares and cooks the family meals, washes the dishes, and in many instances does the weekly washing. The kitchen is truly the most important room in the home. It should be planned to save needless steps, and arranged to provide an atmosphere of cheerful, modern living. The New Freedom Gas Kitchen with its efficient gas range, gas refrigerator and other easy-to-use appliances transforms kitchen drudgery into pleasure.

KATE SMITH asked to write this message on Saving Used Fats!

"The help of every woman is needed in saving used fats for hundreds of battlefield and home-front essentials. But some of us don't know all the ways we can do it. Here are a few points I've found helpful."—Kate Smith

MANY WOMEN SAY: *"But I never have fats left over."* Certainly it's good economy to re-use your fats...but there's always some left over even after that...and that little is more important than you can imagine. Only one tablespoonful of used fat will help make 5 machine-gun bullets. So there just can't ever be too little to save! Come on, *everybody*, scrape your broiling pan, your roaster, skillet. Save meat trimmings and scraps of fat left on plates.

OTHERS TELL ME: *"But my fats are often too dark to turn in."* It doesn't make a mite of difference how dark or blackened ...or what smelly things like onion or fish you've cooked in your fat. Every drop of it will help make parachutes, synthetic rubber, soaps for the fighting and war fronts. Don't feel ashamed to hand it in to your butcher. If you save every bit of fat you possibly can, you're doing a job to be proud of!

THEN YOU HEAR: *"But what sort of container will I use?"* *Any* kind of tin can will do. The next time you open a can of fruit or juice or soup or vegetables, save it. But please don't use glass ...it almost always breaks and makes the fat difficult to salvage. When the can is full, take it to your butcher. For every pound, you'll get 2 red points. If you have any difficulty disposing of your fats, call your Home Demonstration or County Agent.

DIVIDEND

In March, 1935, thousands of Americans invested $27,000,000 in "Baby Bonds." These Bonds were to mature in ten years.

In March, 1945, this very month, those Bonds have matured. These thousands of Americans will receive the full maturity value of those Bonds—$36,000,000.

People of foresight, these thousands of Americans. People who recognized a bargain—one which paid $4 for every $3 they invested.

But, above all, people with great common sense, who understood that holding their Bonds till the date of maturity would bring them the greatest return on their investment.

These "Baby Bonds" of ten years ago are the same as today's War Bonds.

People are buying War Bonds. Yes—people are buying them today because it is a patriotic duty. But they are also buying them today with an eye to the future.

That future will be best guaranteed by not only buying War Bonds, but by holding them. Your country's interest is best served by buying and holding them, and so is your own interest.

Holding War Bonds you bought yesterday, makes it easier to wage war today. Holding War Bonds till maturity makes your future a lot more certain tomorrow.

You can have adventure as editor of a small-town weekly. Like the time an airplane made a forced landing in a field a short distance from our town, a long time ago. I walked out there and, after getting the story, had started away when a tall, middle-aged man asked, "Would you like to ride back to town?" Then he added, "It ain't much," so I supposed he had a wagon but it turned out to be a mare hitched to a sulky. Have you ever climbed into one of those things? They look all right just to look at, but the seat is narrow with no back and there's nothing much between your legs and the ground.

"Giddap," said the driver and the animal started at a brisk pace. "Git along," he said, as the mare increased her speed. "Let's travel," he commanded, touching her with a whip and we passed all the flivvers on the gravel road. It was more breath-taking than a ride in open plane or on the back-step of a racing police patrol.

"Just let me out anywhere," I gasped as we reached the business section. Afterward, I learned that his mare was a consistent winner in all the county fairs thereabout, being able to trot a mile in a shade over two minutes. And you just try going at a 30-mile an hour clip sometime in a steel spider-web kind of contraption like that.

Being young, I took my duties as editor with great solemnity and dignity. The Banner got in a controversy with the Post in our rival city and the Post said, "The young editor of our neighboring town needs a few doses of grandmother's soothing syrup." To which drew the retort, "We rejoice that there is nothing more serious the matter with us but what can be healed by a simple household remedy, whereas until science discovers a cure for lunacy, our contemporary must remain in his present hopeless and helpless condition."

Of the paper's community correspondents, easily the outstanding one was a storekeeper-philosopher who would write such an item as, "Sam Smithers is keeping company with a beautiful Chinese lady in a neighboring city, object matrimony. It is believed this will aid the League of Nations."

Or; "Hiram Queak refused to chop wood for the cook-stove and bases his refusal on Scripture, "What God hath joined together let no man put asunder."

Betty Greer Script Writer for Drama on Canyons

The production date for the Physical Education pageant on the story of the Canyons is nearing. April 12 is the set date for the program, and with the cooperation of many of the departments, the Physical Ed classes have the details nearly completed.

Dr. A. K. Knott presented a project to his poetry classes to aid in the writing of the script for the pageant. The script was completed by Miss Betty Greer, a senior. It is written in blank verse and contains many historical facts about the Canyons. Miss Greer is from Plainview, majoring in English and history, and has shown her writing ability on many previous occasions.

Through the assistance of the Speech Department a narrator will be selected to read the script. The Art Department has aided in many detailed and difficult inscriptions and scenes for the program, while the Home Economics Department has constructed patterns for costumes as well as property designs. Most of the girls to be in the pageant are making their costumes, and Miss Hellen Hickman has cooperated with them assisting with the costumes and offering her sewing machine to those who are unable to secure one.

Through the cooperation of many departments, the pageant is being perfected. Many students are offering their talents such as musical ability, and abilities to create sound effects and lighting effects to further the grandeur of the pageant.

Three Members of Croson Family Visit Campus

Among many ex-students who were on the campus Friday were three members of the Croson family, they were Lt. (j.g) C. O. Croson and his sisters, Madge Croson Fillingim of Petersburg, and Helen Croson Harrell, of Claude.

Lt. (j.g.) Croson was at one time a band director at Pampa and he was invited to conduct a number at the band clinic Friday.

They thought he was so kind to send his wife away for a rest, until he said: "Goodness knows I needed it!"

Women's Chorus Will Present Spring Concert

The women's chorus, composed of 35 voices, will present an evening concert in early April. The chorus, under the direction of Miss Pauline Brigham, has been working the entire semester on the numbers to be presented which include several negro spirituals.

"It's one of the best groups I have ever worked with," Miss Brigham states of the girls. A featured soloist chosen from the group will appear in several numbers. Definite announcements will come at a later date.

Easter Services At Baptist Church

Easter services at First Baptist Church in Canyon include services Thursday and Friday nights and on Sunday. Dr. J. P. Boone will preach on Thursday night and pastor Roy L. Johnson will preach on Friday night on "The Death of Jesus. On Sunday morning at 11:00 the pastor will preach on "The Resurrection of the Dead." At the 8:15 evening hour the pastor will begin a series of sermons on "The Kingdom of God" and the subject will be "The King of the Kingdom." Seven consecutive messages on the Kingdom will be the pastor's effort to clarify the Bible teachings on matters pertaining to the Kingdom and the church.

Sunday School will begin at 9:45 and the subject will be "Jesus, the Author and Finisher of Faith." This is a timely study to which every interested person is invited. New records are being made by the Baptist Sunday School. Average attendance in March was 340 and the average for the past seven months is 300. These are figures never before attained by the Canyon church. Virgil Henson is General Superintendent.

Training Union offers a special timely study in a different way at 7:15 Sunday evening. Wednesday prayer meeting will be at 8:15.

The choir, under direction of Robert Kilgore, will sing special music at both preaching hours Sunday.

Easter Holidays Begin March 29 Through April 1

Thursday, March 29th students of West Texas State will put their thumbs out and begin the journey homeward for Easter holidays. But they will be found back in the classroom April 2nd.

The upkeep of a woman is the downfall of many a man.

EDGETOWN H. D. C. SHOW VALUE OF FEED SACKS

On March 23 the Edgetown Home Demonstration Club met with Mrs. Frank R. Phillips for the program on making things from sacks.

The quotation from Spurgeon, "Economy is half the battle of life: it is not so hard to earn money as it is to spend it well," was very appropriate for the lesson of the afternoon.

After the opening exercise led by Mrs. P. L. Walters, the group was led to the dining room where the articles made from sacks were on display. As the roll was called each one showed her article. Thirty-eight pieces, including clothing, household linens, linings for draperies, were shown.

Mrs. H. C. Long gave many ideas for room decorations that could be made from sacks.

In the round table discussion it was disclosed that any number of useful articles for the home could be made from either the print, white or dyed sacks.

At the close of the meetnig Mrs. Phillips presented each member with grape Hyacinth bulbs.

Delicious refgreshments were served to Mrs. J. W. Gamble, Mrs. Chas. Stratton, Mrs. P. L. Walters, Mrs. J. R. Sharp, Mrs. R. E. Foster, Mrs. O. M. Solomon, Miss Mable Solomon, Mrs. H. C. P. T. A. DISCUSSES HOMES: PLAN FOR DISTRICT MEET

The Parent Teacher Association of the Canyon Grade School met in the grade school library on Thursday, March 15 in its regular meeting.

As a special feature on the program students of the intermediate grades quoted different scriptures from the Bible.

Mrs. R. C. Hillier gave a very interesting talk on "Homes for Our Boys to Come Home To."

Miss Roxana Ford of the Home Making Department, West Texas State, talked on "The Child's Share in Home Making." Miss Ellen Sanders, Canyon high school senior, responded with the child's view on this same subject.

At the business hour officers for the next year were presented by the nominating committee. Plans for the district meeting to be held here on April 4 were announced.

MISS MARIE WESLEY WEDS C. V. MORRIS SATURDAY

Miss Marie Wesley, daughter of Mr. and Mrs. C. L. Wesley, became the bride of C. V. Morris, son of Mrs. Sylvia Morris, Saturday evening at nine o'clock in the home of the bride's parents at 1504 6th Avenue.

Rev. W. J. Phelps performed the ceremony.

Miss Fawn Rogers, only attendant of the bride, wore a navy blue suit with black accessories.

James Morris was best man.

The bride wore a white wool suit with black accessories. For "something new" she wore a lovely ornament in her hair. "Something old" was a cameo necklace belonging to her mother and "something borrowed" was a pair of earrings belonging to the maid of honor.

Following the ceremony a reception was held for the guests. The traditional wedding cake was cut and served with punch.

The couple plan to make their home in Canyon.

Chaplain Charles Dickey was here last Wednesday visiting with old friends. He was formerly pastor of the Presbyterian Church, but has been Chaplain in the Navy for 2 years. He has been stationed at San Diego for several months, but was on his way to the east coast where he will be assigned to ship duties.

Miss Oma Robertson spent the week end in Amarillo at the home of her brother, Dwight Robertson, where she met her parents, Mr. and Mrs. V. P. Robertson of Wellington.

Mr. and Mrs. Wyatt Hester of Lubbock visited a while Saturday with Mr. and Mrs. Silas Hart. Mr. Hart and Mr. Hester are cousins.

Local Boy Is Keeping B-29's Bombing Japan

Special to News: XXI Bomber Command Headquarters, Guam.—(Delayed)—Corporal Curtis H. Robertson of Canyon, Texas, is one of hundreds of enlisted men at a huge Superfortress base in the Marianas whose diligent efforts have made it possible for the giant B-29 bombers of Major General Curtis E. LeMay's XXI Bomber Command to strike regularly at the heart of Japan's war industry.

Corporal Robertson is a mechanic in a combat unit commanded by Brigadier General Emmett O'Donnell, Jr., who led the first B-29 striking force from Saipan to bomb Tokyo's aviation industry on November 24, 1944.

"The work of Corporal Robertson and his fellow soldiers is directly responsible for the success of the B-29s in bombing Japan's war industries," General O'Donnel said in congratulating them. "These men realize their responsibilities in the pre-mission tasks of insuring the maximum chance for safe return of the air crews.

"Without the spirit of teamwork which has been exhibited by every man, our pioneering job, which is only beginning, could not have been a success. They have given their services fully and in complete disregard for personal comforts and pleasures in lieu of hard work and long hours.

An additional tribute has been paid Corporal Robertson and the others for their toil in constructing their B-29 bases. They arrived last August and September and, since aviation engineers were busy with the high priority task of airstrip building, they constructed homes for themselves and for the aerial combat crews who arrived later.

Corporal Robertson's mother, Mrs. Annie M. Robertson, lives at 1812 Second Avenue, Canyon. He attended Canyon High School, before entering the armed service in March, 1942. Three brothers are also in the service: Herman, a Corporal in the Army, Owen and Daire, are Seamen First Class in the Navy.

Eugene S. Bonds Is Now on the Philippines

Special to News: With the 32nd Infantry Division in the Philippines. —Private Eugene S. Bonds, son of J. G. Bonds, Route 2, Happy, Texas, has arrived in the Philippines and has been assigned to the veteran 32nd Infantry Division.

Pvt. Bonds, who has been transferred from camp to post to replacement center, will now have a permanent Army address with the famed Red Arrow Division. He is now serving as a rifleman in an Infantry company of the 32nd somewhere in the Philippines.

Entering the Army in March, 1944, Pvt Bonds had basic training at Camp Roberts, California. He left the United States for overseas duty in November, 1944.

One sacrifices but little in exhibiting good manners, and gains much.

Traffic Study Will Be Held April 16 to 21

Problems of post-war traffic safety will be studied by city and county traffic officers in a special advanced training school to be sponsored jointly by the Federal Bureau of Investigation and the Department of Public Safety in Austin April 16 through 21, it was announced today by Director Homer Garrison of the Public Safety Department.

"Authorities are predicting an annual traffic toll of from 60,000 to 80,000 in the United States after the war," Garrison said. "That would mean between 3,000 and 4,000 traffic deaths a year in Texas. It is our hope that this school will provide local officers with the framework upon which to build their post-war safety programs in a diligent effort to keep those predictions from coming true.

Garrison said Director J. Edgar Hoover of the FBI has agreed to send two of his top-ranking executives as instructors. They are Hugh Clegg, assistant director, and L. A. Hince, inspector, both of Washington, D. C.

Other outstanding instructors will include Dr. Amos E. Neyhart, head of the Institute of Public Safety at Penn State College and consultant for the American Automobile Association in Washington; Wilbur Smith, head of traffic safety research at Yale University; Capt. Roy J. Smith of the Austin Police Department; Judge W. H. Gilmartin of the Fort Worth Corporation Court, and a dozen Public Safety Department experts in various fields.

Students will be housed in the Public Safety barracks at Camp Mabry, where classes will be held.

S2-c Flake Thurman returned to his base in San Diego Tuesday after having spent a short leave with his parents, Mr. and Mrs. T. M. Thurman.

S-Sgt and Mrs. Bud Thurman from Ft. Worth spent the week end with his parents, Mr. and Mrs. T. M. Thurmon.

Mrs. James Cole returned Tuesday night from having spent 10 weeks in Washington, D. C., with her brother and sister.

Mrs. Lee Kennedy and son Don, are here from Frederick, Okla., for a visit with Mrs. Kennedy's mother, Mrs. Dan K. Usery.

AT, NOT FROM

"What do you know about your ancistors, Mrs. Kelly?" asked Mrs. O'Brien.

"An, what's ancistors?"

"Why, people you sprung from."

"Listen to me, Mrs. O'Brien," said Mrs. Kelly, "I come from the rare stock av Donahues that spring from nobody. They spring at thim."

CANDID

Holding the lovely creature close to him, he whispered softly in her shell like ear: "Darling, I love you as no one ever loved you before."

"I can't see much difference," she replied.

Social Security Payments Remain at Same Figure

The first 1945 report on Federal Old Age and Survivors Insurance tax will be made for the first quarter, not later than April 30. All employers will receive blanks in a few days.

The rate for 1945 has been set the same as last year, 1% from the employee and 1% from the employer. The Collector of Internal Revenue at Dallas states that many employers were under the false impression that the rate has been increased.

Remittances must be made to the Collector of Internal Revenue, and not to the Social Security Board. The latter board gives information to the employee regarding his standing of the employee but does not handle the money, according to information issued from Dallas.

REFERENCE

Young man, do you have references from your last place of employment?

Yes, sir. Here's this letter. It reads: "To whom it may concern: We had Sam Jones working for us three weeks and we can truthfully say we are satisfied."

QUITE AN EYEFUL

"Where did you get the black eye?"

"I went to a dance hall last night and was struck by the beauty of the place."

PROTECTION

"Is this the Fidelity Insurance Company?"

"Yes, ma'am. What can we do for you?"

"I want to arrange to have my husband's fidelity insured."

Of all recoverable waste paper in this country, fully 62% is now being salvaged. This compares with a 70% total in England where the program has been under way for years, and where there are strict laws against destroying waste paper.

Musical Program Was Given Tuesday at Rotary Lunch

The College Trio, assisted by Miss Anita Davis at the piano, gave a musical program Tuesday at the luncheon of the Canyon Rotary Club. The Trio, composed of Misses Abbott, Ramage and Foster, have appeared before various clubs and organizations in the Panhandle. Their program has been highly pleasing to all audiences.

Virgil Henson, business manager of W. T., provided the program.

The Rotary Club will co-operate in the clothing campaign. Clothing will be gathered to be shipped to the unfortunate people of Europe who have had all clothing stolen from them by the Nazi armed forces. T. M. Moore, Tom Knighton and T. S. Stevenson were named as the committee to work with the county organization, headed by J. W. Kleinschmidt.

The club donated $25 to the fund for erection of a greenhouse at the Veterans Hospital at Temple.

Visitors were: Emil F. Myers, C. R. Janack, E. R. McCany, A. P. Hancock Clayton Heare, Ernest Frederick, John E. Hill, Fred DeCoster, all of Amarillo; Dr. Joe Boone of Waxahachie; Bob Kilgore of Canyon.

Easter Holiday! Students Play

Junior Class Stages Hill-Billy Assembly

Mellerdramers' Are Main Attraction of Morning

With the opening of the assembly program Friday morning, all thirteen members of the junior class, dressed in hill-billy costume, participated in "a town meetin' of 'Possum Flats."

Ray McDonald, Johnnie Wallen, and Pauline Ruthart composed a trio singing "Hand Me Down My Walking Cane." Following this Anita Johnigan, Bonnie Drake, Cheri Kilchriste, and Louise Dickinson sang "The Old Apple Tree." This part of the program closed with the singing of their theme song "I Like Mountain Music." Piano accompaniment was furnished by the junior sponsor, Mrs. Kate Donnell Brewster.

Four seniors, Dorothy Scott, Frances Harp, Sandy Oliver, and Tommy Thompson, were called from the audience by Ray McDonald to participate in a race. Two baby bottles filled with milk were held by the girls while the boys (with bibs around them) emptied the bottles as quickly as possible. Sandy Oliver won the race.

Read by Bonnie Drake was a melodramatic pantomime with Bobby Dick Mickey as the hero; Louise Dickinson, the heroine; the villain, Cheri Kilchriste, and ma and pa, Jessie Pearl Harding and Ray McDonald, respectively.

As the concluding number on the program, an old fashioned "mellerdramer" was presented with the following characters: Bobbie Dick Mickey, the hero; Anita Johnigan, the heroine; Pappy Tickleweed, Ray McDonald; the parson, Wilma Schuete; the constable, witness for the marriage in the play, and Colonel Digit, Imelda Lange, Pauline Ruthart, and Malcolm Gunter, respectively.

FLAG CEREMONY

Every morning at ten o'clock, Canyon High students rise when the "Call to Colors" is blown on his trumpet by James Meroney. While this is going on, students are raising the flag outside. After the last notes of the "Call to Colors" are blown, the "Star Spangled Banner" is played on the phonograph with the students still standing at attention. Many visitors have commented on this as benig an original and impressive ceremony.

In doing this, Canyon High has attained another step toward its goal of a perfect school.

—By Bill Davis.

TRY, TRY AGAIN

War bond and stamp sales in Canyon High School have fallen off to an unspeakable extent. This is not because students lack either the patriotic feeling or the money—but rather it is due to the fact that sales are not well enough advertised.

Stamps are sold in the hall before school and at noon two days each week—which is fine, but why not send a salesman around to certain classes, too? And wouldn't it be wise to launch another intensive contest, more extensive than the last, to incite more regular buying?

There is no excuse for CHS students' not topping all previous records with present war stamps and bond buying.

Varied Interests Fill Ladies' Spare Time

Familiar persons clad in their attractive aprons are: Mrs. W. M. Dickerson, Mrs. Leatha Lenick, Mrs. Gene Peppard, Mrs. R. T. Furlow, Mrs. B. E. Flippo, and Mrs. J. H. Lisle, lunchroom workers.

Mrs. Lisle, manager, is in charge of buying the food and general management problems. The women come at 8 o'clock in the morning and leave about 3:30. They prepare some food in the afternoon but do most of the preparation in the morning.

This group of ladies have varied interests when they leave their work at school. These include: sewing, homemaking, cooking, music, fancy work, and flowers.

When interviewed the ladies reported that they worked well together because they were congenial and cooperated with each other.

Mrs. Dickerson has one son in the navy and four other children who attend Canyon Grade School. Mrs. Lenick has three children, one of whom is in the navy. Mrs. Peppard has three children who all attend school here. Mrs. Furlow and Mrs. Flippo each has one child in school. Mrs. Lisle has two sons who are in the service.

There have been 99 members of Congress named Smith, of whom 17 have been Senators. There have been three members named Smyth.

Drake and Dooley Deserve Honors of CHS Teams

Eaglettes of Canyon High School defeated the West Texas High School volleyball teams Friday afternoon in both first and second string games, with scores of 15-9 and 15-5, and 15-2 and 15-3, respectively.

In both first string games, Bonnie Drake was high scorer of the CHS team, with Martha Jean Avent following up. Myrtle Dooley and Geneva McDougal were the two highest scorers on the second string.

Other Canyon High School first string players are Nancy Wilson, Anita Johnigan, Marilyn Johnigan, Velta Speer, and Fawn Rogers. W. T. first stringers were LaWanda Moore, Billye Gill, Johnny Ford, Maxine Barnard, Lorene Piper, and LaVerne Hutchinson.

Girls of the CHS second team are Joan Morton, Geneva McDougal, Frances Gooch, Lorene Seales, Louise Dickinson, Alice Prichard, and Myrtle Dooley, while those of W. T. were Thelma Bauer, Norma Zachry, Dottieve Boling, Ann Hollenstein, Louise Lowe, and Johnny Ford and Billye Gill substituting.

Sailors seem to outnumber the soldiers in the number of servicemen visiting families and friends in Canyon this week.

Thurman

Ex-student Flake Thurman, S2-c, son of T. M. Thurman left Tuesday to report back to San Diego. Having joined the Navy on January 3, Flake has finished boot training and expects to go overseas soon.

Walker

Dubois Walker, Jr., S2-c, son of Dubois Walker of Canyon and ex-student of Canyon High School, is home on 30 day leave. Receiving his boot training in San Diego, Dubois has been in the Navy 18 months, 12 of which have been spent in the South Pacific. Serving in the Landing Craft Amphibious Forces, he and his craft were a part of a troop transport.

Lisle

Pvt. Hampton Lisle, '35 graduate and son of Mrs. J. H. Lisle, lunchroom manager of Canyon Public School, was home on a week end pass from Ft. Sill, Oklahoma where he is in basic training.

Lenick

Joining the Navy on January 2, Curtiss Lenick, S2-c, son of Mrs. Leatha Lenick, lunchroom employee, is here on a ten day leave from San Diego where he has just finished boot training.

Allen

According to word received by Miss Elva Fronabarger, Lt. R. V. Allen, former grade school teacher, is now in the Philippines. In his letter, Lt. Allen said he had been reading "The Eagle's Tale" and has a special interest in it because several of his former students now write for the school paper.

NO FOOLIN', NO SCHOOLIN'

Open your eyes and your ears and listen to this! School, you know—the place where you go to gain knowledge. Well! School will not take up all day tomorrow in celebration of Easter.

But! just wait, don't take any long, or rather very long trips this week-end, because school will start again bright and early Monday morning at 10:00 A. M. So don't forget to come.

Club Elects Bible 1945 President

James Bible received the Gold Star Award Friday for being the outstanding food producer of this county in 4-H Club work. Mr. W. H. Upchurch, county agent and 4-H Club supervisor, presented the award in the monthly meeting Friday afternoon.

Fourteen club members elected James Bible president and Walton Byrd secretary for this year.

Since the beginning of the war, emphasis has been placed upon food production. Each boy must raise enough farm products to supply one soldier for one year. Raising calves is the top project of the 4-H Club boys of this area.

In their meetings the boys discuss their past work, receive instruction for future projects and make plans for their summer activities. According to surveys the 4-H boys of the Canyon Public Schools chapter have ranked high in club work and are doing their part in helping to win the war.

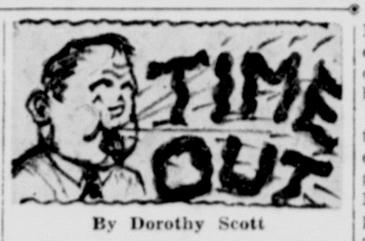
Visitors Observe School Program

Students from Tulia, Borger and Amarillo visited Canyon High School last Thursday and Friday.

Observing schools in Canyon and Amarillo, the Tulia Student-Faculty Congress were looking for ways they could improve their school. Included in this group were Ruth Jones, president of the Student-Faculty Congress; Barbara Daniels, secretary; and Mrs. Dick O'Daniel, sponsor and chaperon.

Attending the band clinic at the college, several members of the Borger and Amarillo bands visited the assembly program Friday morning, and made favorable comments on the school system.

Joye Close, drum majorette; Beverly Blalock and Willa Bridges, twirlers; Lela Mae Close, Betty Bullard, Ronald Senn, Aubrey Tucker, and Dennis Comer of Borger were among the visitors; while from Amarillo were Billy Westerfield, George Demic, and Bill McGill.



By Dorothy Scott

"Shore-nuff," the seniors culminated the long, drawn-out rivalry between themselves and the sophomores by defeating the underclassmen in the intramural finals by a wide margin Friday afternoon.

Our Eaglettes came out victorious in all their volleyball games Friday against the W. T. High girls. How about keeping up that good record?

Sorry that Coach Sanders was too ill to attend the games Friday. We hope he'll be able to attend next year's intramural finals!

We hope those ten Canyon High boys really make "tracks" at the Great Plains Relays next Saturday at West Texas State College.

It will please the seniors (if no one else) to remind them that as juniors last year they won the intramural finals. Hum — two straight years! Not bad, we thinks.

Betty Miller Has Leading Project

In a judging last week, members of the Canyon High School Spanish classes rated the projects of Betty Ann Miller, Frances Gooch, and Ruth Prichard the three best samples of work done by the classes in the last three weeks.

Betty Ann's project, an album of photographs and descriptions, was first in the classes' judgment, while Frances' group of song translations and Ruth's illustrated vocabulary took second and third places respectively.

Other students who handed in projects were: Louise Blewett, Billie Bonds, Mary Frances Colwell, Norma Jo Currie, Earlene Davis, Laura Lee Davis, Mary Lou Gunter, Valeta Haines, Rose Hugg, Marilyn Johnigan, Weldon Lindsey, Geraldine Small, J. T. Summar, Billie Jo Wallen, Nancy Wilson, Gracie Boyd, Zonelle Gregg, Jessie Pearl Harding, Sue Ann Moreman, Mary Nell Morris, Ellen Root and Ellen Sanders.

HOLIDAYS ADD NEW CUSTOM

All of next week will be additional April Fool's Day holidays for Canyon High School students, Supt. J. B. Speer announced this week. After meeting with the teachers in a conference Monday, in which they discussed how the students have been doing such good work the last semester, he decided the students deserved a week's holiday.

Students woud not enjoy school like they do if these extra holidays didn't come along now and then, and since April Fool's Day falls on Easter this year, the teachers felt that students would be deprived of their usual rights if they were not allowed at least this much rest.

Many are already making such plans such as; going fishing, visiting Palo Duro Canyon, Buffalo Lake, etc., but most students say they would just like to stay at home and sleep, read good books, stay out late—in other words, just lay around.

School will not be resumed until Monday, April 9.

Seniors Defeat Soph Hoopsters for Title

All-star Basketeers Accept Silver Basketball Awards

Gaining revenge on the sophomores who had formerly defeated them, the seniors won the intramurial basketball tournament in the final game Friday afternoon with the score 22-12.

High point seniors were Sandy Oliver and Charles Ray Kelso with six points each. High point sophomore was M. E. Rhoads with five points to his credit.

Senior line-up was Earl Lock Neff and Sandy Oliver, forwards; Charles Ray Kelso, center; Bill Thurman and Bruce Albers, guards, with Donal Iverson and Alvin Strem as substitutes. Sophomore line-up was M. E. Rhoads and C. L. Hood, forwards; Wilbert Long, center; James Guthrie and Jerry Bailey, forwards; with Bill Davis and J. T. Summar, substitutes.

Results of other games played this week were as follows: Tuesday, sophomores 14, seventh grade 6; Wednesday, seniors 9, freshmen 5; Thursday, seniors 16, seventh grade 7.

Chosen by the coaches for the all-star team were Earl Lock Neff, senior; Bobby Mickey, junior; M. E. Rhoads, sophomore; Austelle Burrus, freshman; Jerry Inman, eighth grade; and Donnell Ruthart, seventh grade.

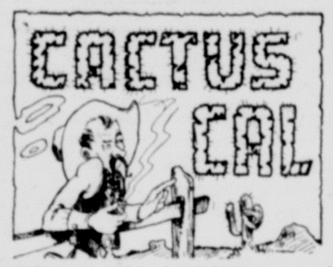
Silver basketball awards arrived last week end and were presented to the boys by Supt. J. B. Speer Monday. The senior trophy has been delayed but will be presented to the winners upon arrival.

Lunches Provide Balanced Meals

Lisle and Fowler Conduct Planning and Preparation

Mrs. Marie Fowler, supervisor, and Mrs. J. H. Lisle, manager, plan and balance the menus for the four hundred students that eat in the Canyon Public School lunchroom every day. Mrs. Lisle and Mrs. Fowler plan the rotation of the menu according to the commodities available because of war-time conditions.

Meals are well-balanced and nutritious, and meat is served three times a week. The meals served each day consist of a meat or meat substitute, two vegetables and a salad, bread, butter, milk, and a dessert. Commodities for the lunch room are purchased from local grocers and Plains Creamery.



Whoever said ole Cal was out of town this week was mistaken. No matter where I go I always get back in time to get in on the latest gossip.

First off that Navy man, Flake Thurman, certainly was welcomed back to town by Billy Jo Wallen and she wasn't the only one glad to see him. Was she, girls?

The magician show certainly found some new couples. Well, at least three. Those being Leroy Hutton and Nancy Wilson; Max Bellah and Nancy Nicklaus; Frances Standley and Guy Brant.

June Jennings is quite a girl. At least Mack Cantrell, from W. T., thinks she is, and how!

James Bible, are you guilty of writing that note asking Pauline Seales to go to the intramurals Friday? If not, how in the world did I find out?

Don't tell me this Hugg-Oliver affair is cooling! No! Surely not this late in life!

Joan Morton and George Milford; Geneva McDougal and Marvin Fite also made the rounds last week.

Grade Notes

Easter egg hunts, parties, and picnics entertained the grade school children today, climaxing the Easter season.

Phyllis Wallen is able to return to Mrs. T. W. Collins' first grade after being ill with measles for the past two weeks.

Mrs. Collins has a new student, Adolyn Horn, from Channing, Texas. Tuesday this class dyed eggs and the hunt was held today.

Mrs. Lucille Doughty's third grade today went out to Wagon Wheels Ranch and were given a weiner roast and Easter egg hunt by the roommothers. For the last few days her class have been studing the Dutch people.

One hundred twenty-five eggs were dyed Tuesday in Mrs. Stella Murrell's Easter decorated room for the hunt today.

Kenneth Vieth, a new student from Iowa whose father is stationed at Amarillo Air Field, is in Mrs. Roberta Orton's first grade. Mrs. Orton's class dyed their eggs yesterday for today's activities.

By the aid of crutches Mrs. L. M. Cousins is able to return to her school work after spraining her ankle.

Mrs. John Davis last Saturday took a trip to Fort Worth for a joint meeting of the executive committee of T. S. T. A. and the presidents of the T. C. T. A. on legislative matters.

Lillian Menke, 1944 graduate of Canyon High School, was recently elected Girl-of-the-Month by the Homemaking Club at Wayland Junior College in Plainview. Lillian also participates in basketball, chorus, quartet and choir activities, and sings over radio station KVOP three times a week.

Come to Church Easter

FOR GENERATIONS before the crucifixion of Jesus Christ, the cross was an emblem of sorrow, pain, and death. After the glorious demonstration of Christ over this cross by His resurrection on Easter Sunday, it became, to those who believed, the symbol of life abundant and eternal.

Today, Christ, the great burden bearer, brings hope for the future . . . that all may know the peace that accompanies faith in Him. Accept His invitation, "Come unto Me all ye that are heavy laden and I will give you rest," by attending the church of your choice on Easter Sunday.

This invitation is extended by churches and business firms listed on this page, urging you to attend church on Easter.

Citizen Number One of Sweetwater Is Paul Johnson

Paul Johnson, a graduate of West Texas State College, was selected as the Number One Citizen of Sweetwater for the year 1944.

"Rotary Rumblings," published by the Sweetwater group, says, "T. P. has been prominently identified with almost every worthy community activity that has been accomplished during the years. His selection was no surprise to citizens of this locality.

"This Rotarian served with distinction as chairman of a number of major relief fund drives, took an active part in promoting Scouting and other youth activities, is an ardent worker in the First Methodist Church, served as a member of the Board of City Development and as president of the local Rotary Club, besides serving as treasurer of the U. S. O. and doing dozens of other worthwhile jobs for community betterment. The committee made no mistake in awarding the trophy to one who has so gallantly devoted his time and talents to the service of his neighbors."

Mr. Johnson was a member of one of the pioneer families of Canyon. His parents, Mr. and Mrs. B. T. Johnson, were both teachers of large Sunday School classes for many years. The Johnson home entertained as many college students as any home in Canyon.

Milton Morris To Be Awarded in Recognition

Acting principal, Milton Morris, of the Demonstration High School, will be in Austin on Thursday of this week to be presented an award in recognition of his work as chairman of the United War Chest Drive in Randall County in 1944 in 1943.

Under Mr. Morris' direction, the drive in Randall County raised a greater percentage over the assigned quota than that of any other county of the area. Mr. Morris said, "The people did this for two years in succession. I do not deserve any credit for it, for the people gave the money." However, the Texas United War Fund organization gives much credit to Mr. Morris in connection with the successful drives of 1943 and 1944.

While in Austin, Mr. Morris will also confer with members of the State Department of Education regarding the work of his boys who are studying agriculture.

News In Canyon 25 Years Ago

(Taken from the files of the Randall County News of April 1, 1920)

Miss Frankie Gober was seriously burned while C. R. McAfee miraculously escaped death when the wall of a building fell on the Green Bros. furniture store in Amarillo. Both are former Canyon citizens. A big stove was thrown against Miss Gober as she lay pinned to her desk.

F. P. Luke resigned his position with C. O. Keiser and will report to the Green Bros. furniture store in Amarillo April 15, where he will be bookkeeper.

Rev. Ted Holifield of the Presbyterian Church called a group of church laymen together for the purpose of forming an Inter-church club.

R. H. Nichols of Vernon and Eugene Thompson of Dallas have started the Amarillo Tribune.

Mr. and Mrs. Geo. A. Brandon left for California to make their home.

J. W. Leonard, 88, died at the home of his daughter, Mrs. T. C. Thompson.

Miss Elva Fronabarger was elected Baptist student secretary to work with normal students.

Stockholders of the Canyon City Club voted to sell the club to the Baptists for a camp ground, but found legal difficulties which are referred to the Attorney General. Rev. B. F. Fronabarger, pastor of the local Baptist Church, has been working on the proposition for several months.

Price Brookfield Makes 14.4 Points in 28 Navy Games

Price Brookfield, a six foot, four one-half inch former forward of the West Texas Tall Boys Team, was one of the pace-makers of the naval training center basketball team in Gulfport, Miss. The team won 26 to 29 games played during the season and Brookfield made an average of 14.4 points through 28 games.

While at WTSC in the year 1941 he made the All-American team at the National Intercollegiate Tournament at Kansas City and was chosen captain of that team. He was also leading scorer of the tournament.

CITATION BY PUBLICATION
THE STATE OF TEXAS

To Joan O'Connor Cousins, Defendant, Greeting:

You are hereby commanded to appear before the Honorable District Court of Randall County at the Court House thereof, in Canyon, Texas, at or before 10 o'clock A. M. of the first Monday next after the expiration of forty-two days from the date of the issuance of this citation, the same being the 16th day of April A. D. 1945, then and there to answer Plaintiff's Petition filed in said Court, on the 22nd day of January A. D. 1945, in this cause, numbered 1840 on the docket of said court and styled Ralph P. Cousins, Plaintiff vs. Joan O'Connor, Defendant.

A brief statment of the nature of this suit is as follows, to wit: Plaintiff sues the defendant for divorce, alleging they were married November 15, 1925, in the State of New York, and that they lived together as husband and wife until about January 14, 1937, when on account of cruel treatment of plaintiff by defendant, which such ill treatment was of such a nature as to render their living together insupportable, plaintiff was compelled to and did abandon the defendant, since which time the parties have lived separately and have not resumed the marital relationship. No children were born to said marriage and the parties adopted no children; and that there are no property rights to be adjusted and adjudicated between the parties; and plaintiff's prayer for judgment for divorce dissolving the bonds of matrimony between plaintiff and defendant and for such other relief plaintiff may be entitled to receive, as is more fully shown by Plaintiff's Petition on file in this suit.

The officer executing this process shall promptly execute the same according to law, and make due return as the law directs.

Issued and given under my hand and the Seal of said Court, at office in Canyon, Texas, this the 1st day of March, A. D. 1945.

IF YOU HAVE AN *Estate* PROBLEM

... as a great many Texans do ... solve it the economical way with Southwestern Life Insurance ... as many other Texans have.

A Texas executive, successful in business, whose estate had been rapidly expanding, faced a perplexing problem of mounting *Federal Estate and State Inheritance Taxes* on the estate he had been building for his wife and himself. His problem was to conserve their estate, and yet pay the *Federal Estate and State Taxes* that would accrue at the death of either husband or wife.

Death claimed his wife first, but he was prepared to meet the more than $40,000 tax bill because he had wisely established a *tax emergency fund* through Southwestern Life Insurance.

You, Mr. Texan, can establish the same kind of emergency fund for your estate. Now, through Southwestern Life Insurance, you can assure the estate conservation you desire, so that your heirs will not have to sell the bulk of your property to pay *Federal Estate and State Inheritance Taxes* that one day must be paid. The investment required to establish the plan is nominal. The protective conservation it will give your estate is something you cannot afford to longer delay. Without obligation, call today for a comprehensive analysis of your needs.

Feed IT only the BEST

- Produce the Food Needed for War
- Keep Machinery Running Smoothly
- Use a Balanced Fuel for Power at Low Cost

YOUR TRACTOR is your obedient servant who works from sun up to sun down and asks nothing in return but fuel to keep it diligently serving. Is it asking too much for you to repay it with quality gasoline so that it can keep on the front line of defense, working to win this war? It can't declare a strike . . . it won't even maliciously sit down on the job . . . it will do the only thing it can do when unjustly treated—lose its smooth-working efficiency. This not only impedes your progress, but seriously hampers the progress of the war. That tractor of yours is part of America's powerful "field artillery." It is a strong agent in supplying the food needed to successfully carry thru until the end.

Rev. Loyd Garrison delivered two excellent sermons Sunday.

To honor Mr. and Mrs. J. F. Fulcher, who moved to the Palo Duro Park Friday, 57 neighbors and friends gathered at the Fulcher home Thursday night for a farewell party. Refreshments of cookies and punch were served to the group at a late hour.

Mrs. C. M. Rogers is greatly improved.

Pvt. Melvin Schaeffer from Camp Wolters visited his parents, Mr. and Mrs. E. W. Schaeffer Saturday night.

Mrs. T. J. Myers honored Mrs. Woodrow Wesley with a miscellaneous shower.

Mr. and Mrs. E. E. Wesley and Arlen Ray visited Saturday night in the J. W. Wesley home.

Troy Wayne Sharpes, Charles Wilson, Arlen Ray Wesley and Elvin Wesley went hiking in the canyons Saturday night.

Vesta and Lavina Amerson visited Sunday in the parental F. O. Amerson home.

Mrs. J. W. Wesley and Mrs. Hollis Shipman attended the bridal shower and tea honoring Mrs. L. G. Airheart, the former Yvonne Hext, Sunday afternoon.

Fayerene Schaeffer visited the parental Schaeffer home Saturday night and Sunday.

Mr. and Mrs. Fred Hext and Mrs. J. W. Wesley visited Wednesday night with D. L. Whitson in Lubbock.

Mrs. G. E. Wesley visited Sunday afternoon with her mother, Mrs. H. C. Evans.

Jerry Shipman visited with his grandfather, G. E. Wesley.

Mrs. C. M. Rogers extends an invitation to her many friends and relatives to bring basket lunch and spend the day with her Easter Sunday.

Dell Zachry has been to New Mexico looking at some land.

The S. F. Sharpes family and Mr. and Mrs. Chas. Sutton were in Canyon Saturday afternoon.

The cake walk and "42" tournament sponsored by the finance committee of the Centerview Home Demonstration Club netted $22.00. High score was won by Mr. and Mrs. J. W. Wesley and low was won by Mrs. G. E. Wesley and Chas. Sutton.

Before you question your husband's judgment, take another look in the mirror.

Attention . . . SchoolPatrons

If you have, or know of a child whose sixth birthday comes between last August and next September and his name has not been taken for the school census, please drop me a card at once—giving name and address. I am sure there are a number of six year old children that I have missed. Or if you know of any child of school age, 6 to 18, who has not been enumerated won't you please let me know. Each one means $27.50 or more for our school. Let's get them all.

UNBROKEN FENCES
GOOD FENCES ARE USUALLY BUILT WHEN THERE'S NOT TOO MUCH EXTRA WORK ON THE FARM. DURING THE BUSY SEASON IT'S HARD TO FIND TIME TO DO MORE THAN KEEP THEM IN GOOD REPAIR—YET A BREAK IN THE FENCE MAY MEAN THE LOSS OF VALUABLE CROPS..."COWS IN THE CORN."
BUT IN OUR PERSONAL LIVING, THE TIME TO BUILD OUR FENCES IS WHEN WE ARE BUSIEST AND OUR EARNINGS ARE HIGH. NOW, DURING THESE ACTIVE DAYS, LET'S STRING STRONG WIRE—WAR BONDS, LIFE INSURANCE, SAVINGS ACCOUNTS—MAKE SURE THERE ARE NO BREAKS CAUSED BY THOUGHTLESS BUYING, NEEDLESS SPENDING—
HELP OUR CROPS GROW TO MATURITY.

Famous Preacher To Deliver Easter Message Sunday

Dr. Robert G. Lee, nationally known silver-tongued orator of Memphis, Tennessee, will be the speaker for an Easter morning message Sunday, April 1st, at 7:30 a. m. to be heard over Radio station KGNC of Amarillo and many other stations throughout the South. The program is sponsored by the Radio Committee of the Southern Baptist Committee and begins a new three-month series of broadcasts on the general theme entitled "Looking Unto Jesus."

Dr. Lee is pastor of the famous Bellevue Baptist Church of Memphis and is one of the most popular speakers in America. His grasp of literature and history and his command of language is said to surpass that of any other Baptist preacher of the South. He is especially popular as a speaker at gatherings of young people.

High School Track Meet To Be Held Saturday

Saturday, March 31, West Texas State will be host to contestants from schools in this region who are to participate in the Great Plains Relay, a resumption of the Great Plains Field and Track competition.

All schools in classes A, AA, and B have been invited. The contest is scheduled for 2:30 at Buffalo Stadium. Coach Windy Nicklaus is director of the meet.

AND QUICK

Physician (to his patient): "I'm sorry, but it would be wrong for me to hide the truth from you any longer. You are a very sick man. Yes, very sick. Is there anyone you would like to see?"

Patient (nodding feebly): "Yes."

Physician: "Who?"

Patient (in a scarcely audible whisper): "Another doctor."

PROVING THE POINT

A British officer was arguing with an American officer as to which army had the better discipline.

As the American was talking one of his men came in.

"Cap," said the private, "can I have your jeep tonight? I've got to take out my girl."

"Sure," replied the officer. Then turning to the Briton, he said: "There's proof of our discipline. He needn't have asked me."

The State of Virginia is called "The Old Dominion."

"GRIM" IS THE WORD, used by Washington authorities in a recent statement, to describe the immediate future of civilian passenger car transportation.

Tire trouble and tire shortages : : : motor trouble and parts shortages : : : are forcing so many cars off U. S. streets and highways every day, that the nation is rapidly approaching the low point in cars needed to keep our country's civilian economy at an efficient operating-level.

It's danger all the way, because every mile you drive places extra hazards and added burdens on your already over-age car. So in our country's interest, and in your own, be thrifty with your dwindling stock of car and tire miles.

RIGHT ANSWER

Salesman: I say, sonny, is your mother at home?"

Small Boy: Yes, sir.

Salesman (after knocking in vain): I thought you said she was home.

Small Boy: Yes, sir, but I don't live here.

Homing pigeons are sometimes released from planes going 375 miles per hour. The sudden blast of wind would rip the birds' wings off were it not for the fact that before being released they are tucked into paper bags. These flutter open quickly, but save the pigeons the initial shock.

GLOVES MAYBE?

"She called him up long distance collect."

If crookedness and thievery continue, the life insurance companies had better be selling fire insurance policies to some people, 'cause they'll sure need it where they are going.

New Santa Fe Bridge Speeds War Traffic

Santa Fe trains are now rolling across a new double-track steel bridge over the Colorado River near Topock, Arizona, speeding up vital war traffic along the route to Tokyo through California's ports of war.

This new Santa Fe bridge removes the "bottle-neck" created by the old single-track bridge it replaces and has ample strength to take care of future requirements as to weights to be imposed on it.

★ ★ ★

The new Topock bridge is an impressive engineering feat, but it is only one step in Santa Fe's program of plant improvement—started long before Pearl Harbor. These improvements have speeded up war traffic today, and they will enable a higher standard of Santa Fe service in the days of peace to come.

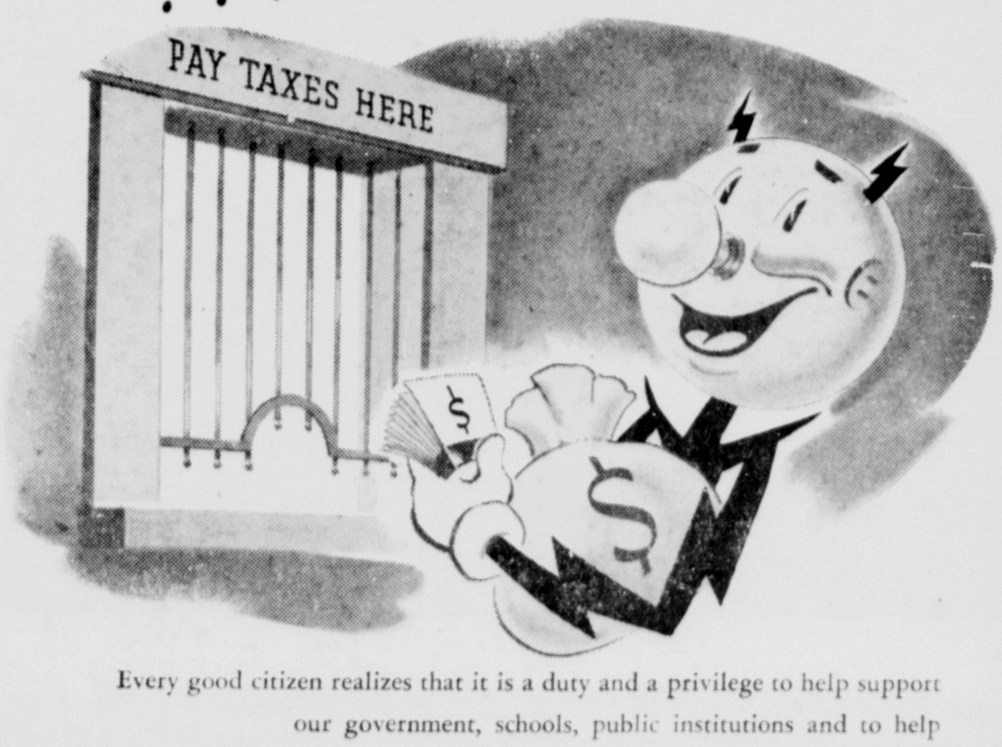
A GOOD TAX-PAYING CITIZEN

. . . wherever we serve!



Every good citizen realizes that it is a duty and a privilege to help support our government, schools, public institutions and to help maintain other government services.

There is only one place from which this money can come. It must come in the form of taxes from those who enjoy the benefits of our democratic form of government. Taxes make these benefits possible and in addition are helping to win the war.

Like yourself, we are glad to be Americans—to pay taxes—to enjoy the securities and privileges of this great country—our America!

V-NEWS

Is the use of leftovers a problem in your home? Now that we are more conscious than ever of the importance of saving every bit of food both for patriotic and financial reasons, we are faced with the problem of ways in which this utilization may be accomplished. To be most satisfactory, leftovers should be kept for a day or two if the storage facilities permit before they reappear on the family table. With few exceptions, the food is best if the form is changed so that it is not associated with the previous meal. Suggestions for using some of the common left overs follow.

Cereals: Sauted molded cereal; Scrapple (season farina type cereal highly, add cooked sausage broken in bits, mold, and fry in little fat); Croquettes with cheese, egg, white, or tomato sauce; Molded dessert (add sugar and favoring to farina type cereal or to rice, mold, serve with cream or sauce).

Breads: Toast and grind for use in scalloped dishes, croquettes, etc.; Substitute dry, fine crumbs for part of the flour in muffins; cut as for shoestring potatoes and French fry to use with soups or salads; Toast sticks (plain or with grated cheese); Bread puddings; Crumb cake or torte; Split biscuits or muffins, butter, and toast for croutons; Split biscuits or muffins, butter, sprinkle with sugar and cinnamon, and toast; serve for breakfast or as a simple dessert.

Vegetables: Combine for vegetable pie; or add bits of meat, top with mashed potatoes, and use as shepherd's pie; Use potatoes as puffs or patties; Puree small amounts of vegetables, combine, and add to thin white sauce highly seasoned for soup; Save liquids from canned foods for soup; Congeal with gelatine for salad; Cream alone or in combination; Combine in scalloped dishes; Use as filling for omelets.

Meats: Hash or stew; Meat pie with pastry, biscuit, or potato crust; Combine with crumbs, uncooked oats, potato, or vegetables for loaf; Tamale pie; Combine ground meat with gravy and seasonings, spread on biscuit dough, roll and cut as cinnamon roll. Bake and serve with gravy or sauce; Combine with vegetables and congeal for main dish salad; Grind with seasonings for sandwich filling; Curry and serve in noodle or rice ring; Fold chipped meats into souffle; Use as omelet filling; Scallop; Grind for chili or soup.

Mrs. J. M. Collins and daughter, Ann, visited with her sisters, Mrs. Sanford Black and Mrs. Frank Hicks and her mother, Mrs. Jessie Reid, in the home of Mrs. Frank Hicks and family Sunday.
